

JOURNAL OF SCIENCE

Aims and scope

The *Journal of Science* published by the Hanoi National University of Education was established in 1955. The purpose of the Journal is to publish original research articles in areas of science. The Journal periodically publishes national and international publications for each issue in the fields of Natural Science, Social Science, and Educational Science.

Submission and ethics

Authors may submit the manuscript on the Journal's online submission system at the website <http://hnuejs.edu.vn>. The authors must commit and take personal responsibility for research ethics and scientific integrity. The Journal only accepts articles published for the first time with new research results.

Author guidelines

Papers use scientific terms and legal units of measurement issued by the Government or used popularly in the professional area.

Papers should be typed in Times New Roman font, size 11, line spacing of single, paragraph spacing of 2 pt, not exceeding 10 pages. Papers are encouraged to prepare manuscripts in *Latex* for Natural Sciences papers, in *Microsoft Word* for other sciences, and printed on 19 cm × 27 cm size paper. Papers should be used *ACD/Chem. Sketch or Science Helper for Word* for chemical formulas. Figures must be clear, and not over 17 x 14 cm. Figure's title should be underneath. Table's title should be above.

Papers should follow the format: Abstract (topic idea and content), introduction (summary of domestic and abroad research, actual issues, proposals), content (research methodology, research time and means, research content carried out), conclusion (main research results, significance of research, further research directions) and references. The sections are presented in turn as follows: the article title, below is the author's full name, place of work or study, work address, country name, corresponding author, his or her email address, the article's received day, followed by an abstract, and keywords all in English with both Vietnamese and English articles but add the Vietnamese sections beside those English sections in accordance with the template of the Journal with the Vietnamese article.

References

Citations of references are listed and cited such as [1]-[n] with continuous references or [2], [4], [7] with discontinuous references. At the end of your paper, citations should be numbered and organized in the order they appear in the paper with the format provided as follows provided as follows:

- [1] Li X, Liu ZH & Papageorgiou NS, (2023). Solvability and pullback attractor for a class of differential hemivariational inequalities with its applications. *Nonlinearity*, 36(2), 1323-1348.
- [2] Wilson DE, Lacher TE & Mittermeier RA (eds.), (2017). *Handbook of the Mammals of the World (Vol. 7)*, Rodents II, Lynx Edicions, Barcelona, p. 987.
