CONTENTS

Bach Viet Hoang, Spectral radius conditions for connected planar graphs to have a few cut-edges 3

Nguyen Viet Dung and Nguyen Thi Kim Oanh, Semi-implicit Milstein scheme for stochastic Ginzburg-Landau equations 9

Luu Ba Thang, Greatest common divisor of shifted Pell numbers and balancing numbers 20

Nguyen Nguyen Nam and Pham Dinh Phong, Fine-tuning domain-specific pretrained transformers for automated short answer grading and feedback generation 27

Nguyen Huu Bao, Le Xuan Hien and Pham Tho Hoan, SQL judge: design and implementation of an automated SQL query grading platform for high school informatics education 41

Nguyen Viet Hung, Study of the existence and stability of spatial soliton beams in higher-order nonlinear optical fibers with gain and loss 53

Dao Thi Le Thuy and Le Nhu Thuc, Production of vector unparticle pairs in e^+e^- collisions 66

Pham Thi Lien, Nguyen Thi Thao and Tran Duc Hiep, Composition and temperature effects on short and medium-range order in lithium silicate glasses: a molecular dynamics study 79

Tran Thi Thoa, Nguyen Phuong Linh, Nguyen Thi Khanh Linh, Vu Thi Huong Giang and Hoang Van Hung, Effects of vacancy defects on monolayer hBN: a density functional theory study 90

Nguyen Xuan Thanh, Nguyen Thanh Thuy, Chu Duc Ha, Dong Huy Gioi and Tran Thi Thanh Huyen, Comparative analysis of physiological and biochemical characteristics of *Plectranthus amboinicus* grown in hydroponic and aeroponic systems 100

Tran Thi Thuy Van, Mai Thanh Tan, Vu Anh Tai, Le Van Hoat, Nguyen Thanh Binh, Ngo Thi Bich Hong, Tong Phuc Tuan and Vu Khanh Linh, Assessment of forest changes in Nghe An province for risk determination under the European Union Deforestation Regulation 110

Vu Thuc Hien, Le Hanh Chi, Nguyen Thanh Chung, Luu The Anh, Dao Ngoc Hung and Vo Thanh Son, A set of management effectiveness indicators for biosphere reserves in Vietnam: a case study of the Western Nghe An Biosphere Reserve 121
